

## TJ Students, technology featured on KODE evening news

June 27, 2007

The evening news on KODE Action News 12 featured Thomas Jefferson's leading-edge technology programs on June 27, 2007. The story featured students participating in a Tablet PC/OneNote training session during the Summer Discovery Academy. Also featured was the school's new safety/security video system, its videoconferencing capabilities, and the new convertible notebook/tablet computers. Jane Cage, of [Heartland Technology Solutions](#), spoke about the benefits technology brings to the classroom. Heartland Technology Solutions helped the school realize the maximum value on its safety/security video system.
